

Deficiencies: The chapter on medical management is not optimally organized in handbook format, and readers must skip from section to section to find details of the manifestations, diagnosis, and treatment of a particular tumor type.

Recommended Readership: This book will be useful for endocrinologists, neurologists, neurosurgeons, and residents and fellows in these disciplines.

Overall Grading: ★★★★★

Todd B. Nippoldt, M.D., *Division of Endocrinology, Metabolism, Nutrition, and Internal Medicine, Mayo Clinic Rochester, Rochester, Minnesota*

Amyotrophic Lateral Sclerosis: Diagnosis and Management for the Clinician, edited by Jerry M. Belsh and Philip L. Schiffman, 390 pp, with illus, \$90, Armonk, New York, Futura Publishing Company, 1996

CORRECTION

In an article entitled "Delivery Rates for Preventive Services in 44 Midwestern Clinics," which was published in the June 1997 issue of the *Mayo Clinic Proceedings* (Mayo Clin Proc 1997;72:515-523), a few numbers in Table 5 were incorrect. The corrected table is reprinted below (corrected numbers are shown in boldface type).

Table 5.—Clinic Proportions of Patients Up-to-Date on Preventive Services at Beginning of Visit, Proportions of Patients Advised to Have a Service if Not Up-to-Date, and Proportions of Patients Who Were Offered Service or Were Up-to-Date at End of Visit*

Preventive service	Up-to-date at beginning of visit†	Offered service if not up-to-date‡	Offered service or up-to-date (or both) at end of visit
Assess blood pressure	0.81 ± 0.05	0.88 ± 0.09	0.88 ± 0.09
Measure cholesterol level	0.65 ± 0.08	0.08 ± 0.05	0.68 ± 0.08
Queried about smoking§	...	0.53 ± 0.14	0.53 ± 0.14
Advised to quit smoking§	...	0.47 ± 0.12	0.47 ± 0.12
Breast examination	0.67 ± 0.06	0.15 ± 0.09	0.72 ± 0.06
Mammogram	0.60 ± 0.09	0.22 ± 0.11	0.68 ± 0.09
Papanicolaou testing	0.77 ± 0.06	0.28 ± 0.12	0.84 ± 0.05
Influenza immunization	0.62 ± 0.07	0.25 ± 0.15	0.72 ± 0.08
Pneumococcus immunization	0.33 ± 0.10	0.05 ± 0.05	0.36 ± 0.11

*Data are shown as mean ± standard deviation. Source of data is patient self-report. Rates among age- and gender-eligible patients weighted to the US white population age and gender distribution.

†See Table 1 for definitions of up-to-date for specific preventive services.

‡At or after last visit except for influenza immunization, which includes the entire prior year.

§Smokers only.
