Editorial

1489 The Many Faces of Sudden Death

Daniel P. Morin and Carl J. Lavie

Original Articles

1493 Incidence and Etiology of Sudden Cardiac Arrest and Death in High School Athletes in the United States

Kimberly G. Harmon, Irfan M. Asif, Joseph J. Maleszewski, David S. Owens, Jordan M. Prutkin, Jack C. Salerno, Monica L. Zigman, Rachel Ellenbogen, Ashwin L. Rao, Michael J. Ackerman, and Jonathan A. Drezner  

A high school athlete's risk of sudden cardiac arrest and death is higher than noted in previous reports.

1503 Does Sudden Unexplained Nocturnal Death Syndrome Remain the Autopsy-Negative Disorder: A Gross, Microscopic, and Molecular Autopsy Investigation in Southern China

Liyong Zhang, David J. Tester, Di Lang, Yili Chen, Jinxiang Zheng, Rui Gao, Robert F. Corliss, Shuangbo Tang, John W. Kyle, Chao Liu, Michael J. Ackerman, Jonathan C. Makielski, and Jianding Cheng 

Cardiomyopathy-related rare genetic variants may contribute to the abnormal structure and lethal arrhythmias underlying sudden unexplained nocturnal death syndrome.

1515 Physical Activity and Cognitive Function in Middle-Aged and Older Adults: An Analysis of 104,909 People From 20 Countries

Philippe de Souto Barreto, Julien Delrieu, Sandrine Andrieu, Bruno Vellas, and Yves Rolland 

People doing physical activity even at low frequencies have better cognitive function than those doing no physical activity as they age.

1525 Sedentary Time, Cardiorespiratory Fitness, and Cardiovascular Risk Factor Clustering in Older Adults—the Generation 100 Study

Silvana B. Sandbakk, Javaid Nauman, Nina Zisko, Øyvind Sandbakk, Nils Petter Aspvik, Dorthe Stensvold, and Ulrik Wisløff

High age-specific cardiorespiratory fitness fully attenuates the adverse effect of prolonged sedentary time on cardiovascular risk factor clustering, independent of meeting the physical activity consensus recommendation in older adults.

Continued

1535 Impact of Stress Testing for Coronary Artery Disease Screening in Asymptomatic Patients With Diabetes Mellitus: A Community-Based Study in Olmsted County, Minnesota

Ruth E. Bates, Mohamed Omer, Sahar S. Abdelmoneim, Adelaide M. Arruda-Olson, Christopher G. Scott, Kent R. Bailey, Robert B. McCully, and Patricia A. Pellikka  

Screening cardiac stress testing in asymptomatic patients in a community-based cohort within 2 years of a diabetes diagnosis was associated with improved long-term event-free survival.

1545 Risks for Cardiovascular and Cardiac Deaths in Nonobese Patients With Diabetes and Coronary Heart Disease

Tetsuro Tsujimoto, Hiroshi Kajio, and Takehiro Sugiyama 

In a diabetic population with coronary heart disease, nonobese individuals had higher risk of cardiovascular and cardiac mortality compared with obese individuals.

1555 Increasing Incidence of Melanoma in the Elderly: An Epidemiological Study in Olmsted County, Minnesota

Jeannette M. Olazagasti Lourido, Janice E. Ma, Christine M. Lohse, and Jerry D. Brewer 

The incidence of melanoma in older adults increased over the past 4 decades, especially in older men; however, disease-specific survival increased in both men and women.

1563 Facial Nerve Schwannomas: Review of 80 Cases Over 25 Years at Mayo Clinic

Matthew L. Carlson, Nicholas L. Deep, Neil S. Patel, Larry B. Lundy, Nicole M. Tombers, Christine M. Lohse, Michael J. Link, and Colin L. Driscoll  

Treatment should be tailored according to tumor location and size, existing facial nerve function, and patient priorities and age, with a priority placed on function preservation over complete tumor removal.

1577 Accelerated Accumulation of Multimorbidity After Bilateral Oophorectomy: A Population-Based Cohort Study

Walter A. Rocca, Liliana Gazzuola-Rocca, Carin Y. Smith, Brandon R. Grossardt, Stephanie S. Faubion, Lynne T. Shuster, James L. Kirkland, Elizabeth A. Stewart, and Virginia M. Miller  

Women who underwent bilateral oophorectomy before menopause experienced a higher risk for 7 of the 18 chronic conditions under study and an accelerated accumulation of multimorbidity.

Brief Report**1590 Gender Distribution Among American Board of Medical Specialties Boards of Directors**

Laura E. Walker, Annie T. Sadosty, James E. Colletti, Deepi G. Goyal, Kharmene L. Sunga, and Sharonne N. Hayes 

Special Articles**1594 To Screen or Not to Screen: Reconciling Individual and Population Perspectives on Screening**

L. Rachid Salmi, Gaëlle Coureau, Marion Bailhache, and Simone Mathoulin-Pélissier  

1606 The Promise and Peril of Precision Medicine: Phenotyping Still Matters Most

Jaeger P. Ackerman, Daniel C. Bartos, Jamie D. Kapplinger, David J. Tester, Brian P. Delisle, and Michael J. Ackerman 

Review

1617 Myocardial Fibrosis in Athletes

Freek R. van de Schoor, Vincent L. Aengevaeren, Maria T.E. Hopman, David L. Oxborough, Keith P. George, Paul D. Thompson, and Thijs M.H. Eijssvogels 

Concise Review for Clinicians—CME Credit Offered

1632 Benzodiazepine Use in Older Adults: Dangers, Management, and Alternative Therapies

Matej Markota, Teresa A. Rummans, John Michael Bostwick, and Maria I. Lapid 

Please note that articles with an “e” page designation are available only in the online version of the Journal at www.mayoclinicproceedings.org

Residents' Clinic

1640 61-Year-Old Man With Right Knee Pain and Chronic Anemia

Moritz Binder, Hassan B. Alkhateeb, and Ronald S. Go

e149 77-Year-Old Man With a Painful Left Knee, Anemia, and Renal Insufficiency

Matthew R. Starr, Stanislav Henkin, and Laura S. Greenlund 

Symposium on Neoplastic Hematology and Medical Oncology—CME Credit Offered

1645 Adult Acute Lymphoblastic Leukemia

Shilpa Paul, Hagop Kantarjian, and Elias J. Jabbour

Letters to the Editor

1667 Potential Impact of Burnout on the US Physician Workforce

Tait D. Shanafelt, Lotte N. Dyrbye, Colin P. West, and Christine A. Sinsky

1668 Industry Funding of Cancer Patient Advocacy Organizations

Matthew V. Abola and Vinay Prasad

1670 Misdiagnosis of Diverticulitis in Patients With Irritable Bowel Syndrome

George F. Longstreth

1671 MACRA Regulatory Burdens and the Threat of Physician Burnout

Join Y. Luh

Medical Images

1673 Pulmonary Alveolar Proteinosis: Crazy Paving to Whole Lung Lavage

Shahnaz Ul Rehman and Jeffrey R. Hammersley 

Path to Patient Image Quiz

e155 Parkinson Disease

Rachael A. Vaubel, Aditya Raghunathan, and Lori A. Erickson 

Art at Mayo Clinic

e157 Large Hybrid Muse by Richard Hunt

Margaret R. Wentz
